

House RV Caucus

RVs Move America

-  The nearly 23,000 RV related businesses in the United States create an overall economic impact of **\$50 Billion**
-  The RV industry directly employs over 155,000 Americans, paying \$8 Billion in direct wages
-  9 million, typically middle class, families own an RV and use them at any of the 16,000 public and private campgrounds in the United States
-  RVs are made for every taste and budget; from \$5,000 for folding camping trailers to over \$500,000 for high-end Type A motorhomes

Request: Support the RV industry and families that enjoy the RV lifestyle by joining the House RV Caucus.

To join, contact the offices of the House RV Caucus co-chairs:
Representative Dennis A. Ross (FL-15) **Representative Jackie Walorski** (IN-2) or **Representative Dina Titus** (NV-1)

About the House RV Caucus:

- Founded in 2014
- Raises awareness and promotes education about the RV industry on Capitol Hill
- Members receive important updates on RV industry issues
- Provides support on important industry regulatory and legislative issues
- Members speak at or attend informative briefings on the RV industry

Congress of the United States
Washington, DC 20515

****Join the House RV Caucus Today****

Dear Colleague,

We invite you to join the House Recreation Vehicle (RV) Caucus. This caucus was formed to celebrate a truly American product and way of life, as well as an economic engine that helps move America.

Approximately one in twelve American households owns an RV. This past year, U.S. RV manufacturers shipped nearly 375,000 vehicles at a retail value topping \$16.5 billion. The economic impact that the industry provides reaches deeply into every state and congressional district. The homegrown RV industry, which includes manufacturers, suppliers, dealers, and campgrounds, employs hundreds of thousands of Americans in good-paying jobs. The industry is preparing to release the results of its first-ever economic impact study, *RVs Move America*, on June 7, which will show that RV-related businesses generate tens of billions of dollars in nationwide economic impact each year.

Coming in a variety of types, including motorhomes, travel trailers, truck campers, folding camping trailers, and fifth-wheel trailers, RVs allow American families to build stronger relationships, explore the great outdoors, and take part in healthy activities. They provide the flexibility, freedom, and comfort to see all parts of the United States.

Please join us for an "RVs Move America" reception on June 8, 2016. This joint House and Senate RV Caucus event will take place from 5:00 to 7:00 p.m. in Room 902 of the Hart Senate Office Building. Come over and experience the interactive Economic Impact Study, featuring data and reports for each congressional district and state and hear from the Caucus co-chairs about how American-made RVs move the economy.

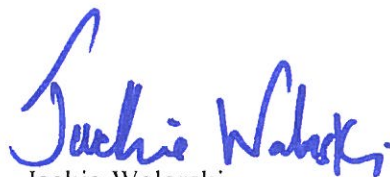

Throughout the year, the House RV Caucus will be an opportunity to celebrate this great American tradition and will provide you with industry information, news stories, and briefings, with special educational events planned from time to time. Nearly every state and district in this country has RV enthusiasts, dealers, rental facilities, and campgrounds, and we hope you will join us in our efforts to strengthen this iconic part of the American economy by becoming a member of the House RV Caucus.

If you are interested in joining or learning more, please contact Melissa Robel (Rep. Ross) at 5-1252 and Melissa.Robel@mail.house.gov, Brandt Anderson (Rep. Walorski) at 5-5142 and Brandt.Anderson@mail.house.gov, or David Rosenbaum (Rep. Titus) at 5-5965 and David.Rosenbaum@mail.house.gov.

Sincerely,

Dennis A. Ross
