2022 Edition of ANSI/RVIA EGS-1 Standard Now Available!

The 2022 edition of the ANSI/RVIA Engine Generator Sets for Recreational Vehicle Safety Requirements (EGS-1) Standard [is now available for \\$30.00 for non-members and \\$25.00 for members per copy.](#)

This standard sets forth safety requirements and standards for engine generators intended for installation and operation in recreational vehicles and similar mobile applications. It is not intended to apply to emergency, standby generators with integral fuel tanks, welding generators, farm lighting plants, variable speed generators for railroad car installations, military specification engine generators, marine use, or similar specialized equipment. Included in this standard are recommended safety measures for installations and care. Available as PDF only.
